Subject/Special Instructions

Ron/Lisa -

Attached is our listing of documents that we would like to review. This list was approved by Stephane Scott and distributed by Jason Sanderson. I believe that all of these schedules are prepared in the normal course of business by your people.

Lisa - I am about to send you an e-mail listing the types of information that we would like to discuss with you as part of the revenue and reserve work.

If you have any questions, I can be reached at 703-341-4620. (VNET 235-4620). Joan Lynch can be reached at 703-962-3936.

Thank you -

Trey Block
Arthur Andersen

Kenny - Trey and Joan Lynch -
This is NOT what I approved.
Ron Lomenzo will provide support for
accounts, but it will be in the Folmer
WorldCom format. Ron will send to me
and I will approve before AA is give a copy

Subject: Audit Planning Meeting

I met today with Stephanie Scott and David Myers to discuss our 1999 audit approach and timing. In general they have accepted our approach in Revenues, line costs and capital expenditures. Stephanie and David will notify the heads in each area and will then notify us as to whom we should begin the planning discussions with. Once we have received that notification we can proceed with setting up the timing of our process reviews. I would expect to receive those phone calls in the next 3 - 4 days. Secondly, concerning the substantive testing or balance sheet reviews we need to forward all PBC request lists to me and I will give them to Stephanie and David they will then disburse the requests to the appropriate individuals who will then return the completed PBC to Stephanie and David. Once approved Stephanie will notify us or deliver to us the PBC. Additionally, during the course of fieldwork you will probably identify additional areas that may require PBCs, in the event that you do the same line of command is to be followed (request to me, then to Stephanie, Stephanie to local contact and then ok). It is imperative that we follow the applicable chain of command in order to keep the firm out of hot water and limit the number of personal chewings I receive to 2-3 a day. On a lighter note both Stephanie and David informed me of the continuing political war that is occurring between MCI - UUNet and WorldCom. I told Stephanie/David that I personally believed that AA was being put in the middle of numerous situations of which were not our own doing - to which they both concurred. The approach discussed above is a by product of two things: (1) politics and (2) Jackson management wanting to know what is going on in detail at each location - which is back to politics. The positive side of the equation is we have an opportunity to provide value to Stephanie/David by keeping them informed of what is going on out in the field. Of course, I realize that what is done with that information can sometimes harm our relationships in the field but make no mistake Stephanie/David have significant influence with Scott Sullivan.

With the upcoming Sprint merger the desire for control will be even greater. We must demonstrate that we can provide the information they need in the manner they need such that they will be loyal supporters during what will most likely be at least an attempt by E&Y for the audit.

I need each of you to send me the September 1999 PBC request list for all entities covered: WorldCom, MCI, UUNet and the UK and any other list where you might be requesting information from the client.

I realize at times this client pushes our patience and sanity to the limit - in the end though we are all part of one of the largest telecommunications clients in the world, one that will have on a pro forma basis \$55 billion in revenues when the Sprint merger is completed. Additionally, as each of you know this is a high profile client for the firm and the telecommunications practice as a whole. In the next couple of weeks we will be sending out a firm fiscal 1999 report card to give you an idea of the impact and recognition the client receives throughout the firm. I am confident that we have a good plan and the right assets to execute it. Thanks to all of you on the front end and if we pull it off this year who knows where the 2000 client service team meeting will be.

If you have any questions, please contact me at 601 460 5380.
